BENCH - ENDLESS SUMMER II- MOBILIER NATIONAL

Continuing his collaboration with Maison Fey for the Endless Summer II bench, this new version is crafted from Synderme, an innovative material made by repurposing discarded leather pieces. These natural leather strips are ground and combined with paper fibers and a natural latex binding agent, resulting in a resourceful material that retains the essential qualities of leather while embodying a commitment to sustainability.

It entered the Mobilier National collection in 2024.

47 x 16 x 17 inches
(1200 x 410 x 435 mm)

Price upon request.
